

# Essential Oils for Winter

Immunity boosting oils are some of the must-have essential oils for the winter. With the heightened chances of getting sick during these months, daily use (sometimes multiple times a day) of these oils may strengthen the body's ability to stave off sickness.

Whether used in topical formulations for skin and hair care, or incorporated into immunity boosting blends for the winter months, these oils may help combat congestion, coughs, sore throats, etc.

The most common properties to consider in oils for Winter are soothing, warming and comforting properties that will brighten the skin and bring a comforting atmosphere to a room.

# Essential Oils for Winter

**Agonis Fragrans Oil

# Essential Oils for Winter

## SAFETY FIRST

Essentials oils can be 50-100x more concentrated than natural levels in the plant. Take caution and always mind best practices when using oils. If applying topically, they should be diluted into a carrier oil and ONLY IF they are recommended for ingestion or inhalation, be sure to follow recommended dosage.

## EXTERNAL RECOMMENDATIONS

### Essential oil:

Several drops rubbed into the skin. (This may be diluted at 30 ml essential oil to 500 ml of a suitable carrier such as vegetable oil.)

### Ointment:

Semi-solid preparation containing 5-20% essential oil (in carrier oils, creams, or lotions) for local application. (Salve)

### Tincture:

Aqueous-alcoholic preparation containing 5-10% essential oil for local application.

### Inhalant:

Add a few (2-5) drops of essential oil to hot water or to a vaporizer; deeply inhale the steam vapor.

Many of our conventional oils and products are also available in Organic form. Those that are Organic are certified by the USDA and Oregon Tilth. Please contact us for more information on our Organic products.

## DISCLAIMER

We always aim to source high quality ingredients and have a large range of respected suppliers from around the world. This list is a guide only, correct at the time of publication. If you are after an oil not on our list, please contact us and we can see if we can source it for you. As products are plant sourced and natural, availability is reliant on many factors outside our control. Despite our best efforts, we cannot guarantee the availability of any of our products at any given time. The use of the products listed in this document is to be considered as a guide only and further advice should be sought from your formulating chemist and/or health practitioner.
